Work Experience

5Paisa Capital Ltd

Role: Product Manager/Business Analyst

(Aug'24 - till date, Mumbai)

Project Details

- *Worked on optimizing lead management processes at 5Paisa Capital Ltd. by implementing Zoho CRM to streamline and automate lead tracking, nurturing, and conversion. The project aimed to improve sales efficiency and customer engagement, ensuring the company's retail investors were effectively managed throughout the sales funnel.*

Roles & Responsibilities

- Defined the overall strategy and vision for the CRM system in alignment with business goals, focusing on improving lead management, customer engagement, and sales performance.
- Developed and maintained a comprehensive CRM product roadmap, prioritizing features and enhancements based on business needs, customer feedback, and market trends.
- Worked closely with Sales, Marketing, Customer Support, and IT teams to understand business requirements and ensure seamless integration of CRM solutions with existing tools and platforms.
- Coordinated with the development and technical teams to ensure CRM customization and configurations were aligned with business needs, timelines, and technical constraints.

- Acted as the primary point of contact between business stakeholders (Sales, Marketing, Customer Support) and the CRM development team, ensuring that requirements were clearly defined and met.

Ongoing Microsoft Dynamics 365 Implementation:

- Driving the implementation of Microsoft Dynamics 365 CRM in collaboration with PwC, including requirement gathering, solution design, and customization to align with business objectives.
- Defining data migration strategy and planning migration from Zoho to D365, ensuring accuracy and minimal disruption.
- Overseeing configuration and customization of Dynamics 365 modules (Sales, Marketing, Customer Service) to meet organizational workflows.
- Coordinating integration efforts between Dynamics 365 and third-party/internal systems, ensuring seamless data flow and operational efficiency.
- Leading user enablement initiatives, including training programs, workshops and show & tell sessions to prepare Sales, Marketing, and Support teams for adoption.

CRMNEXT

Role: Business Analyst

(Apr'21 - Aug'24, Mumbai)

Project Details – HDFC Bank CRM

- *In this project have worked on multiple Modules and Objects of CRM like Leads, Cases, Accounts, Activity, Integration jobs, Reports, etc.*

Roles & Responsibilities

- Effective collaboration and participation in Business analysis, Research, Teamwork and Collaboration
- Working towards SDLC (Waterfall and Agile) and STLC for various projects implemented for HDFC Bank (India), one of the biggest and most reputed clients of CRMNEXT.
- Playing a vital role in managing various activities of the project like requirement elicitation, analyzing the information gathered, documenting the functional or business requirements, BRD, FRD, Solution Scope Documents.
- Managing stakeholders across various hierarchical levels.
- Verification/Validation of requirements to ensure they deliver business value by conducting various reviews
- Verifying Impacts of solutions by performing Regression and Sanity testing and ensuring delivery quality standards are met.
- Involved in the production movement for projects delivered by the team.
- Successfully participated in various Scrum Ceremonies by sharing opinions on process & product innovation
- Efficient in User Acceptance Testing (UAT) and Production issue resolutions.
- Handling Change Requests and maintaining all the necessary business-related documents like BRD and performing Smoke testing, System/Unit testing, System integration testing (SIT)
- Experience in mapping business requirements & designing customized solutions with strong analytical skills & capabilities to analyse business practices and define optimal procedures.
- Responsible for Mobile application testing, Web application testing and Database testing.
- Accountable for Test cases, Test scenarios creation and overseeing the management of issues and tests in the internal company portal, ensuring efficient tracking and reporting, and ultimately contributing to achieving flawless releases.
- Hands-on experience of API Testing tools and Automation testing.

Galentic Technologies PVT LTD.

Role: Test Engineer Trainee

(Oct’20 – Apr’21, Mumbai)

Project Details – Kotak Life Insurance

-This project aims to achieve goal of complete life-cycle of insurance policies (New Business, Mid Term Adjustments, Renewals, Lapses, and Cancellations)

Roles & Responsibilities

- Understanding and analyzing the Client's business requirements.
- Preparing Test Scenarios, Test Cases, Test data for module, integration and system testing.
- Defect Tracking in Bugzilla and Preparing Summary Reports
- Performed Smoke testing, Sanity testing, Regression testing and Exploratory testing
- Worked on Group Asia and Life Asia tools
