Work Experience

5Paisa Capital Ltd

Role: Business Analyst

(July'22 - till date, Mumbai)

Project Details:

Worked on the optimization and enhancement of both the website and mobile application at 5Paisa Capital Ltd. The primary objective of the project was to improve user experience, attract new users, and increase engagement by delivering timely and relevant market information. The initiative focused on driving lead generation by encouraging account openings, thereby contributing directly to customer acquisition and overall business growth.

Roles & Responsibilities

- Gathered, analyzed, and documented business requirements through stakeholder interviews, workshops, and requirement elicitation sessions for Market domain and Market risk.
- Created Business Requirement Documents (BRD), Functional Requirement Documents (FRD), user stories, process flow diagrams, flowcharts, wireframes, and understanding documents to align business needs with technical solutions.
- Performed impact analysis and gap analysis to identify process inefficiencies, assess change implications, and define optimal solutions.

- Collaborated with UI/UX, sales, marketing, and compliance teams to ensure product features meet business objectives, regulatory guidelines, and customer expectations
- Worked closely with cross-functional teams (development, QA, operations) to ensure seamless project delivery within deadlines.
- Conduct functional testing, manual testing, mobile application testing, pre-production testing, and coordinated UAT with stakeholders to validate end-to-end functionality. Also Conducted performance and load testing using JMeter to evaluate system stability and responsiveness under varying user loads, ensuring optimal performance of the 5Paisa website and mobile application.
- Participated in sprint planning, sprint refinement, backlog grooming, daily stand-ups, reviews, and retrospectives in an Agile Scrum environment.
- Defined test scenarios, prepared test cases, executed test plans, and ensured defect tracking until closure.
- Managed deployment and production movement activities, ensuring smooth transition from staging to live environments.
- Integrated internal systems with Zoho CRM and maintained hands-on experience in Zoho CRM for lead management and customer service operations.
- Prepared detailed MIS and project status reports for senior management, ensuring transparency and timely decision-making.
- Performed API testing using Postman to validate the integration of real-time market data with the 5Paisa Capital website, ensuring accuracy, reliability, and seamless data flow.
